I have good news to report...As most of you know by now Dianne was very sick most of July...I'm happy to say she is back to work and all better now!!

During the same time Phillip went into the hospital for a hip replacement and was in rehab for 2 weeks after surgery...he is home now and doing very well.

We're all so glad both of you are doing well now...

Thanks so much to Arie for a wonderful presentation on Service Dogs with Wyatt and Isaac. We really learned a lot. This is such a great thing these folks do; training dogs to assist handicapped/disabled people. Way to go....
